

## FRAXEL RE:STORE™ DUAL

We treat fine lines, hyperpigmentation and textural issues like acne scarring using Fraxel re:store™ DUAL wavelength laser to remove damaged skin and stimulate the production of new collagen. This improves the skin's tone and texture, restores elasticity and promotes healthy tissue with minimal discomfort and downtime. We recommend a total of 5 treatments for the best results.

Packages include post-treatment skincare products from PCA Skin (full-size Creamy Cleanser, Silkcoat Balm, Après Peel Soothing Balm and Hydrator Plus SPF 30).
