

## ROSACEA PACKAGE

Laser therapy improves the symptoms of rosacea and the appearance of redness caused by broken capillaries to give the skin a smoother, more even tone using a combination of Pulsed Dye Laser (PDL)/DioLiteXP and Intense Pulsed Light™ (IPL) treatments. These safe, noninvasive treatments target blood vessels without causing damage to the surrounding skin. A total of 5 treatments are recommended for the best results. There is minimal or no downtime and no prolonged recovery necessary.

This package also treats telangiectasias, small visible dilated blood vessels near the surface of the skin.
